## Choose Refill Salmon Arm

With the environment at the heart of it all, Anna has planned and developed a business model for a designated refillery store in Salmon Arm, BC. Choose Refill Salmon Arm will enable customers to reduce single-use plastic consumption by refilling their existing containers with household cleaning and personal toiletry products.

Products will be sourced locally from Canadian companies who use organic and environmentally friendly ingredients. Ecofriendly and sustainable merchandise for the kitchen and bathroom will also be available in the store.
